FUND BALANCE

Fund balance measures the net financial resources available to finance expenditures within current or future periods. The District's Unassigned General Fund Balance will be maintained to provide the District with financial stability and a margin of safety to fund unanticipated contingent expenditures that may occur unexpectedly during the fiscal year. The Unassigned General Fund Balance used for these purposes may only be appropriated by resolution of the Board of Trustees unless voter approval is required.

Fund balance classification will be reported by the District in accordance with accounting standards issued by the Governmental Accounting Standards Board (GASB.)

Any portion of Fund Balance may be applied or transferred for a specific purpose either by voter approval if required by law or by formal action of the Board of Trustees if voter approval is not required. Amendments or modification to the applied or transferred fund balance must also be approved by formal action of the Board of Trustees.

The Board of Trustees shall delegate the authority to assign fund balance, for encumbrance purposes, to the Treasurer/School Business Official or Superintendent of Schools to sign purchase orders.

In circumstances where an expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications (e.g., expenditures related to reserves), the expenditure is to be spent first from the restricted fund balance to the extent appropriated by either budget vote or Board approved budget revision and then from the unrestricted fund balance. Expenditures incurred in the unrestricted fund balances shall be applied first to the assigned fund balance to the extent that there is an assignment and then to the unassigned fund balance.

Fund Balance Regulation:

Establishment of Reserves

Reserve funds (essentially a legally authorized savings account designated for a specific purpose) are an important component in planning for future projects, acquisitions, and other lawful purposes. The Sagaponack Common School District (CSD) may establish and maintain reserve funds in accordance with New York State laws, Commissioner's Regulations, and the rules or opinions issued by the Office of the New York State Comptroller. Sagaponack CSD shall comply with the reporting requirements of Article 3 of the General Municipal Law of the State of New York and the Governmental Accounting Standards Board (GASB) issued GASB Statement Number 54, Fund Balance Reporting and Governmental Fund Type Definitions.

Any and all Sagaponack CSD reserve funds shall be properly established and maintained to promote the goals of creating an open, transparent, and accountable use of public funds. The Sagaponack CSD will authorize all payments or transfers into a reserve fund by resolution. The Sagaponack CSD may engage independent experts and professionals, including, but not limited to, auditors, accountants, and other financial and legal counsel to monitor all reserve fund activity and prepare any and all reports that the Board may require.

Periodic Review and Annual Report:

An annual report of all reserve funds will be prepared and submitted to the Board of Trustees by the District Treasurer or designee.

The Board shall utilize the information in the annual report to make necessary decisions to adequately maintain and manage the Sagaponack CSD reserve fund balances while mindful of its role and responsibility as a fiduciary of public funds.

Reserves Established by the Sagaponack CSD to Date:

Employee Benefits Accrued Liability-(General Municipal Law Section 6-p)

Creation – June 2015

Purpose and Funding Method – This reserve may only be used to pay for unused accumulated leave time contractually provided to certain groups of employees, normally upon retirement. This typically includes payment for unused sick and vacation pay. This reserve has been funded by annual budgetary appropriations and excess fund balance. The reserve may also be funded by transfers from other reserve funds as permitted by law, and such other funds as the school board may legally appropriate.

Use and Monitoring of Reserve – This reserve may be used when an employee separates from the District and payment of accumulated leave is required and not available in the general fund. These transactions flow through the budget via a budget revision with the offsetting revenue coming from the reserve. The Treasurer/Business Official will recommend to the Superintendent and the Board of Trustees when reserve funds should be used. The Board of Trustees will be aware of the use of the reserve. The Treasurer/Business Official will be the primary monitor of the reserve and will share information annually with the Superintendent and the Board of Trustees.

SAGAPONACK

Funding Goal – This reserve should be funded at 100% of the accrued liability for unused accumulated leave time.

Workers' Compensation Reserve – (General Municipal Law Section 6-j)

Creation – November 2016

Purpose and Funding Method – This reserve is used to pay for any potential excess workers compensation claims. This reserve was funded from excess fund balance. The reserve may also be funded by annual budgetary appropriations, transfers from other reserve funds as permitted by law, and such other funds as the school board may legally appropriate.

Use and Monitoring of Reserve – This reserve may be used by the District if any unexpected workers compensation claims occur. The Board of Trustees will be aware of the use of the reserve. The Treasurer/Business Official will be the primary monitor of the reserve and will share information annually with the Superintendent and the Board of Trustees.

Funding Goal – This reserve will not exceed \$50,000.

Unemployment Reserve – (General Municipal Law Section 6-m)

Creation – November 2016

Purpose and Funding Method – This reserve is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants. This reserve has been funded by excess fund balance. The reserve may also be funded by annual budgetary appropriations, transfers from other reserve funds as permitted by law, and such other funds as the school board may legally appropriate.

Use and Monitoring of Reserve – This reserve may be used by the District when it is billed Unemployment costs by the State Unemployment Insurance Fund. The Board of Trustees will be aware of the use of the reserve. The Treasurer/Business Official will be the primary monitor of the reserve and will share information annually with the Superintendent and the Board of Trustees.

Funding Goal – This reserve will not exceed \$50,000.

Repair Reserve – (General Municipal Law Section 6-d)

Creation – _____

Purpose and Funding Method - To pay for certain repairs to capital improvements or equipment. The type of repairs must not recur annually or at shorter intervals.

There are no referendum requirements for the establishment of a repair reserve fund and or for expenditures from the fund. The reserve may be funded by budgetary appropriations, revenues that are not required by law to be paid into any other fund or account (e.g., transfers from unexpended balances of existing appropriations, or excess fund balance).

Use and Monitoring of Reserve - A resolution appropriating moneys from a repair reserve fund is subject to a public hearing and at least five days must elapse between the publication of the notice of hearing and the date specified for the hearing. In an emergency, moneys in a repair reserve fund may be expended

SAGAPONACK

without giving notice and without holding a public hearing. To make such an emergency expenditure, the governing board must pass a resolution approved by at least a two thirds vote. In addition, at least one-half of the expenditure must be repaid in the next fiscal year and the balance repaid by the end of the fiscal year after that.

Funding Goal – The reserve is currently authorized not to exceed \$300,000.

Insurance Reserve – (General Municipal Law Section 6-n)

Creation – November 2016

Purpose and Funding Method - To fund certain uninsured losses, claims, actions, or judgments for which the local government is authorized or required to purchase or maintain insurance, with a number of exceptions. An insurance reserve fund may also be used to pay for expert or professional services in connection with the investigation, adjustment, or settlement of claims, actions, or judgments. An insurance reserve may not be used to pay for uninsured losses, claims, actions, or judgments which are itemized in the Comptroller's Reserve Manual under Insurance Reserves. This reserve was funded from excess fund balance. The reserve may also be funded by annual budgetary appropriations, transfers from other reserve funds as permitted by law, and such other funds as the school board may legally appropriate.

Use and Monitoring of Reserve – This reserve may be used by the District if any uninsured losses, claims, actions, or judgements occur. The Board of Education will be aware of the use of the reserve. The Treasurer/Business Official will be the primary monitor of the reserve and will share information annually with the Superintendent and the Board of Trustees.

Funding Goal – This reserve will not exceed \$33,000

Unassigned Fund Balance

Creation – Unassigned fund balance at the end of a fiscal year cannot, by law, exceed four percent of the subsequent years voter approved operating budget.

Purpose and Funding Method – The funds in unassigned Fund Balance are unrestricted as to how they may be used at the direction of the Board of Trustees. These funds have been accumulated from unspent operating budget over many years.

Use and Monitoring – These funds are for emergencies, unanticipated and unforeseen expenses, revenue shortfalls, or one-time expenses that cannot be handled either in the budget or with available revenues. The Treasurer/Business Official will be the primary monitor of this reserve and will share information annually with the Superintendent and the Board of Trustees.

Funding Goal – While the law states that four percent of the General Fund operating budget is the maximum, the Board of Trustees, through experience, believes that due to the small size of the District, that amount would not be fiscally responsible needed to address unforeseen expenditures. Therefore, the Board of Trustees authorizes unassigned fund balance not to exceed \$300,000. Any funds in excess of this amount will be returned to the taxpayers over a course of 10 years as to not cause too much fluctuation in the tax rate.

Accounting and Reporting Systems

The system of accounts will conform to the Uniform System of Accounts for School Districts. The accounting system will yield information necessary for the Board to make policy decisions.

Proposed expenditures will be budgeted under and the actual expenditures will be charged to categories that most accurately describe the purpose for which monies are to be spent.

The Board directs the Treasurer to keep it informed of the financial status of the district through monthly cash reconciliation and budget status reports and annual fiscal reports. The Treasurer should highlight any deviation in actual fiscal conditions from planned fiscal conditions and offer recommendations to the Board to remedy the situation. INTERNAL/EXTERNAL AUDITS

Education Law requires school districts in New York State to undergo both an annual external audit by an independent certified public accountant approved by the Board and to maintain an internal audit function that identifies and assesses risks in the District's fiscal operations and to insure that appropriate internal controls are in place.

It is noted in Education Law, that school districts that employ less than eight teachers, expend less than five million dollars annually, and have fewer than three hundred enrolled students in the previous school year are exempt from both the external and the internal audit function.

Based on the District's enrollment, the size of the faculty and the District's expenditure history, the Board of Trustees acknowledges that the District does not presently undergo an annual external audit nor does it have an internal audit function in place.

The Board of Trustees, on an annual basis, will review the requirements necessary for both the internal and external audits and will plan accordingly.

PURCHASING

The Board of Trustees views purchasing as serving the educational program by providing necessary supplies, equipment and related services.

It is the goal of the Board to purchase competitively, without prejudice or favoritism, and to seek the maximum educational value for every dollar expended. Competitive bids or quotations shall be solicited in connection with purchases pursuant to law. The General Municipal Law requires that purchase contracts for materials, equipment and supplies involving an estimated annual expenditure exceeding \$20,000 and public work contracts involving an expenditure of more than \$35,000 will be awarded only after responsible bids have been received in response to a public advertisement soliciting formal bids. Purchases of the same commodity cannot be artificially divided for the purpose of avoiding the threshold. Similar procurements to be made in a fiscal year will be grouped together for the purpose of determining whether a particular item must be bid.

The district's purchasing activity will strive to meet the following objectives:

1. to effectively supply all staff units in the school system with needed materials, supplies, and contracted services;
2. to obtain materials, supplies and contracted services at the lowest prices possible consistent with the quality and standards needed as determined by the Purchasing Agent in conformance with state law and regulation and in cooperation with the requisitioning authority. The educational and physical welfare of the students is the foremost consideration in making any purchase;
3. to ensure that all purchases fall within the framework of budgetary limitations and that they are consistent with the educational goals and programs of the district;
4. to maintain an appropriate and comprehensive accounting and reporting system to record and document all purchasing transactions; and
5. to ensure, through the use of proper internal controls, that loss and/or diversion of district property is prevented.

Opportunities shall be provided to all responsible suppliers to do business with the school district. Suppliers whose place of business is situated within the district may be given preferential consideration only when bids or quotations on an item or service are identical as to price, quality and other factors. Purchases ~~may~~^{will} be made through available cooperative BOCES bids, state contracts of the Office of General Services or county contracts whenever such purchases are in the best interests of the district. In addition, the district will make purchases from correctional institutions and severely disabled persons through charitable or non-profit-making agencies, as provided by law.

It is the district's responsibility to review each "piggybacking" contract corresponding to a proposed purchase, upon the advice of counsel as necessary, to determine whether the original contract does not conflict with state law or regulation, and meet the following requirements:

1. The contract must have been let the United States, or any agency thereof, any state, or any other political subdivision or district therein;
2. The contract must have been made available for use by other governmental entities; including New York State local governments;
3. The contract must have been let to the lowest responsible bidder or on the basis of best value, in a manner consistent with General Municipal Law §103. Those main elements are: (a) public solicitation of bids or offers; (b) secure or confidential bids or offers; (c) lowest responsible bidder, or responsible offeror of best value, which optimizes quality, cost and efficiency.

In accordance with law, the district shall give a preference in the purchase of instructional materials to vendors who agree to provide materials in alternative formats. The term "alternative format" shall mean any medium or format for the presentation of instructional materials, other than a traditional print textbook, that is needed as an accommodation for a disabled student enrolled in the district (or program of a BOCES), including but not limited to Braille, large print, open and closed captioned, audio, or an electronic file in a format compatible with alternative format conversion software that is appropriate to meet the needs of the individual student.

The Board is also aware of the need to reduce exposure of students and staff to potentially harmful chemicals and substances used in cleaning and maintenance. In accordance with law, regulation and guidelines set forth by the Office of General Services (OGS), the district will purchase and utilize environmentally sensitive cleaning and maintenance products in its facilities whenever feasible. Cleansers purchased must, first and foremost, be effective so that the district may continue to purchase non-green products as necessary. Environmentally sensitive cleaning and maintenance products will be procured in accordance with standard purchasing procedures as outlined in this policy and regulation.

In order to ensure that the district avails itself of advantageous purchasing opportunities, the Board authorizes the Purchasing Agent to represent the district in applying for federal programs designed to discount prices for goods and services. As with all purchasing activity, appropriate documentation of the application and purchase through any federal program will be maintained by the business office.

Competitive Bidding

Purchase contracts and public works contracts subject to competitive bidding will be awarded to the lowest responsible bidder, however, the Board authorizes that purchase contracts may be awarded on the basis of best value, as defined in State Finance Law §163. Other exceptions to competitive bidding are outlined below.

In addition, the Board authorizes the receipt of sealed bids for purchase contracts in electronic format, pursuant to the provisions of General Municipal Law §103(1) which addresses proper documentation, authentication, security, and confidentiality of electronic bids.

The district shall comply with the requirements of General Municipal Law §103-g, which prohibits, with few exceptions, competitive bidding contracts with entities that invest significantly in the Iranian energy sector, as outlined in the accompanying regulation.

Exceptions to Competitive Bidding

Competitive bidding, even if the dollar value of the purchase meets the threshold established above, is not required in the following circumstances:

1. emergencies where time is a crucial factor;
2. procurements for which there is no possibility of competition (sole source items); or
3. professional services that require special skill or training (see policy 6741 for guidance on purchasing professional services).
4. where the district is purchasing through (or is "piggybacking" onto) the contract of another government entity, where the original contract complies with the requirements of New York State law for competitive bidding.

Purchasing when Competitive Bidding Not Required

Goods and services which are not required by law to be procured by the district through competitive bidding will be procured in a manner so as to ensure the prudent and economical use of public monies, in the best interests of the taxpayers, to facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under the circumstances, and to guard against favoritism, improvidence, extravagance, fraud and corruption.

Alternative proposals or quotations will be secured by requests for proposals, written or verbal quotations or any other appropriate method of procurement, except as permitted by state law for procurements:

1. under a county contract;
2. under a state contract;
3. under a federal contract;
4. under a contract of another political subdivision;
5. of articles manufactured in state correctional institutions; or
6. from agencies for the blind and severely disabled.

"Piggybacking" onto the contract of other governmental agencies is permitted where the original contract is in conformance with the goals of this section.

The district will provide justification and documentation of any contract awarded to an offer or other than the lowest responsible dollar offer or, setting forth the reasons why such award is in the best interests of the district and otherwise furthers the purposes of section 104-b of the General Municipal Law.

General Purchasing Provisions

The Superintendent of Schools, with the assistance of the Purchasing Agent, shall be responsible for the establishment and implementation of the procedures and standard forms for use in all purchasing and related activities in the district. Such procedures shall comply with all applicable laws and regulations of the state and the Commissioner of Education.

No Board member, officer or employee of the school district shall have an interest in any contract entered into by the Board or the district, as provided in Article 18 of the General Municipal Law.

Comments will be solicited from those staff members involved in the procurement process before enactment of the district's policies regarding purchasing and from time to time thereafter. The policies must then be adopted by Board resolution. All district policies regarding the procurement processes will be reviewed by the Board at least annually.

The unintentional failure to fully comply with the provisions of section 104-b of the General Municipal Law or the district's policies regarding procurement will not be grounds to void action taken nor give rise to a cause of action against the district or any officer or employee of the district.

PURCHASING REGULATION

The following sets forth the procedures for the procurement of goods and services by the district:

I. Definitions

Best value: optimizing quality, cost and efficiency. The basis for best value shall reflect, whenever possible, objective and quantifiable analysis, and may also take into consideration small businesses or certified minority- or women-owned businesses as defined in State Finance Law §163.

Purchase Contract: a contract involving the acquisition of commodities, materials, supplies or equipment

Public Work Contract: a contract involving labor or both materials and labor for a project such as construction. ~~services, labor or construction~~

II. General Municipal Law

The General Municipal Law requires that purchase contracts for materials, equipment and supplies involving an estimated annual expenditure exceeding \$20,000 and public work contracts involving an expenditure of more than \$35,000 will be awarded only after responsible bids have been received in response to a public advertisement soliciting formal bids. Similar procurements to be made in a fiscal year will be grouped together for the purpose of determining whether a particular item must be bid.

III. Competitive Bidding Required

A. Method of Determining Whether Procurement is Subject to Competitive Bidding

1. The district will first determine if the proposed procurement is a purchase contract or a contract for public work.
2. If the procurement is either a purchase contract or a contract for public work, the district will then determine whether the amount of the procurement is above the applicable monetary threshold as set forth above.
3. The district will also determine whether any exceptions to the competitive bidding requirements (as set forth below) exist.

4. All advertised bids shall include the following statement required by General Municipal Law 103-g: “By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each bidder is not on the list created pursuant to paragraph (b) of subdivision 3 of section 165-a, part of the Iran Divestment Act of the state finance law.”

B. Contract Combining Professional Services and Purchase

In the event that a contract combines the provision of professional services and a purchase, the district, in determining the appropriate monetary threshold criteria to apply to the contract, will determine whether the professional service or the purchase is the predominant part of the transaction.

C. Opening and Recording Bids; Awarding Contracts

The District Clerk will be authorized to open and record bids. Contracts will be awarded to the lowest responsible bidder or a purchase contract bid of best value (as recommended by the Purchasing Agent and Superintendent of Schools), who has furnished the required security after responding to an advertisement for sealed bids.

In order to be considered a responsible bidder, entities must certify that they are not on the list created and maintained by the State Office of General Services cataloging significant investment in the Iranian energy sector. Such statement may be submitted electronically pursuant to General Municipal Law §103(1).

Entities that cannot make this certification may only be awarded the bid if:

1. The entity’s investment activities in Iran were made before April 12, 2012; the investment activities in Iran have not been expanded or renewed after that date; and the entity has adopted, publicized, and is implementing a formal plan to cease the investment activities in Iran and to refrain from engaging in any new investments in Iran; or
2. The district makes a determination, in writing, that the goods or services are necessary for the district to perform its functions and that, absent such an exemption, the district

would be unable to obtain the goods or services for which the contract is offered.

D. Documentation of Competitive Bids

The district will maintain proper written documentation which will set forth the method in which it determined whether the procurement is a purchase or a public work contract.

E. Purchase of Instructional Materials

In accordance with Education Law the district shall give a preference in the purchase of instructional materials to vendors who agree to provide materials in alternative formats (i.e., any medium or format for the presentation of instructional materials, other than a traditional print textbook, that is needed as a accommodation for a disabled student enrolled in the district, including but not limited to Braille, large print, open and closed captioned, audio or an electronic file in an approved format.)

The district will establish and follow a plan to ensure that every student with a disability who needs his or her instructional materials in an alternative format will receive those materials at the same time that they are available to non-disabled students.

F. Leases of Personal Property

In addition to the above-mentioned competitive bidding requirements, section 1725 of the Education Law requires that the district will be subject to competitive bidding requirements for purchase contracts when it enters into a lease of personal property.

Documentation: The district will maintain written documentation such as quotes, cost-benefit analysis of leasing versus purchasing, etc.

G. Environmentally-Sensitive Cleaning and Maintenance Products

The district will purchase and utilize environmentally sensitive cleaning and maintenance products whenever feasible. The purchasing agent will consult with the Green Guidelines provided by the Office of General Services.

Any legal issues regarding the applicability of competitive bidding requirements will be presented to the school attorney for review.

IV. Exceptions to Competitive Bidding Requirements

The district will not be subject to competitive bidding requirements when the Board of Education, in its discretion, determines that one of the following situations exists:

1. emergency situations where:
 - a. the situation arises out of an accident or unforeseen occurrence or condition;
 - b. a district building, property, or the life, health, or safety of an individual on district property is affected; or
 - c. the situation requires immediate action which cannot await competitive bidding.

However, when the Board passes a resolution that an emergency situation exists, the district will make purchases at the lowest possible costs, seeking competition by informal solicitation of quotes or otherwise, to the extent practicable under the circumstances.

Documentation: The district will maintain records of verbal (or written) quotes, as appropriate;

2. when the district purchases surplus or second-hand supplies, materials or equipment from the federal or state governments or from any other political subdivision or public benefit corporation within the state.

Documentation: The district will maintain market price comparisons (verbal or written quotes) and the name of the government entity;

3. when the Board separately purchases eggs, livestock, fish and dairy products (other than milk), juice, grains and species of fresh fruits and vegetables directly from producers or growers. The amount expended in any fiscal year by the district may not exceed an amount equal to fifteen cents multiplied by the number of days in the school year multiplied by the total enrollment of the district.

Documentation: The district will maintain documentation consistent with sections 114.3 of the Regulations of the Commissioner of Education;

4. when the Board separately purchases milk directly from licensed milk processors employing less than forty (40) people. The

amount expended in any fiscal year by the district may not exceed an amount equal to twenty-five cents multiplied by the number of days in the school year multiplied by the total enrollment of the district or exceed the current market price.

Documentation: The district will maintain documentation consistent with section 114.4 of the Regulations of the Commissioner of Education;

5. when the district purchases goods, supplies and services from municipal hospitals under joint contracts and arrangements entered into pursuant to section 2803-a of the Public Health Law.

Documentation: The district will maintain the legal authorization, Board authorization and market price comparisons; or

6. when there is only one possible source from which to procure goods or services required in the public interest.

Documentation: The district will maintain written documentation of the unique benefits of the item or service purchased as compared to other items or services available in the marketplace; that no other item or service provides substantially equivalent or similar benefits; and that, considering the benefits received, the cost of the item or service is reasonable, when compared to conventional methods. In addition, the documentation will provide that there is no possibility of competition for the procurement of the goods.

7. when the district purchases professional services that require special skill or training, such as but not limited to, audit, medical, legal or insurance services, or property appraisals.

Documentation: The district will keep proper documentation in accordance with policy 6741.

8. when the district purchases through the contracts of (or "piggybacks" onto) other governmental entities, as authorized by law, for certain goods and services permitted by law. Factors relevant to the decision to "piggyback" may include cost, staff time, delivery arrangements, quality of goods and services, and suitability of such goods and services to the district's needs.

Documentation: The district will keep documentation indicating why "piggybacking" is in the best interests of the district, copies of the original contract, and that the originating contract was let in a manner consistent with applicable competitive bidding requirements.

V. Quotes When Competitive Bidding Not Required

Goods and services which are not required by law to be procured by the district through competitive bidding will be procured in a manner so as to ensure the prudent and economical use of public monies in the best interests of the taxpayers. Alternative proposals or quotations will be secured by requests for proposals, written or verbal quotations or any other appropriate method of procurement, as set forth below.

A. Methods of Documentation

1. Verbal Quotations: the telephone log or other record will set forth, at a minimum, the date, item or service desired, price quoted, name of vendor, name of vendor's representative;
2. Written Quotations: vendors will provide, at a minimum, the date, description of the item or details of service to be provided, price quoted, name of contact. For example, with regard to insurance, the district will maintain documentation that will include bid advertisements, specifications and the awarding resolution. Alternatively, written or verbal quotation forms will serve as documentation if formal bidding is not required.
3. Requests for Proposals: the district will utilize RFP's to engage professional services providers in accordance with policy 6741.

B. Purchases/Public Work: Methods of Competition to be Used for Non-Bid Procurements; Documentation to be Maintained

The district will require the following methods of competition be used and sources of documentation maintained when soliciting non-bid procurements in the most cost-effective manner possible:

1. Purchase Contracts up to \$20,000

2. under a state contract;
3. under a federal contract;
4. under a contract of another political subdivision;
5. of articles manufactured in state correctional institutions; or
6. from agencies for the blind and severely disabled.

"Piggybacking" onto the contract of other governmental agencies is permitted where the original contract is in conformance with the goals of the district's policy and regulation for purchasing when competitive bidding is not required.

VII. Procurements from Other than the "Lowest Responsible Dollar Offeror"

The district will provide justification and documentation of any contract awarded to an offeror other than the lowest responsible dollar offeror, setting forth the reasons why such award is in the best interests of the district and otherwise furthers the purposes of section 104-b of the General Municipal Law.

VIII. Internal Control

The Board authorizes the Superintendent of Schools, with the assistance of the Purchasing Agent, to establish and maintain an internal control structure to ensure, to the best of their ability, that the district's assets will be safeguarded against loss from unauthorized use or disposition, that transactions will be executed in accordance with the law and district policies and regulations, and recorded properly in the financial records of the district.

Comments will be solicited from those staff members involved in the procurement process before enactment of the district's regulations regarding purchasing and from time to time thereafter. The regulations must then be adopted by Board resolution. All district regulations regarding the procurement processes will be reviewed by the Board at least annually.

CONTRACTING FOR PROFESSIONAL SERVICES

The Board of Education will make certain that professional services are secured in a manner that protects the integrity of the process, ensures the prudent use of taxpayer dollars and provides a high quality standard of service, in accordance with law and regulation. Professional services are defined as services requiring special skill and/or training, such as legal services, medical services, auditing services, property appraisals or insurance.

Purchasing professional services does not require competitive bidding. The Board directs the Superintendent of Schools to take measures to ensure that a highly qualified professional is secured through the prudent and economical use of public money, which may include:

1. reviewing trade journals;
2. checking professional listings; and/or
3. inquiring of other districts or other appropriate sources.

The designated district staff will prepare a comprehensive written request for proposals (RFP), which will contain critical details of the services sought. The RFP will specify that the proposal include the structure of the relationship between the district and the provider, including, if applicable, the terms of the retainer, the hourly fees and other associated costs.

In reviewing the RFPs, the district will consider, at a minimum, the following factors:

1. the suitability of the individual/firm for the district's needs;
2. the special knowledge or expertise of the individual/firm;
3. the credentials and applicable certifications of the individual/firm;
4. the quality of the service provided by the individual/firm;
5. cost;

The district will periodically, but not less frequently than every three years, issue professional service RFPs and may conduct interviews as part of the RFP process. The written proposals submitted by applicants shall be maintained for at least six years.

The Superintendent, after a thorough review of the proposals, will recommend the professional service provider best suited to the district to the Board for its approval.

Regardless of when during the year the professional service provider was engaged by the Board, at the annual organizational meeting the Board will appoint the attorney, physician, external auditor, or other professional, as applicable. Professional service providers selected and appointed in this manner will not be considered employees of the district.

The Superintendent is charged with developing administrative procedures to implement this policy.

PAYROLL PROCEDURES

The Board of Education recognizes the importance of the payroll function to the effective administration of the district. The Board is also aware that this is an area at risk of fraud and abuse. It is the intention of the Board to take reasonable and necessary steps to safeguard the district's payroll. The Board directs the Superintendent to establish procedures to reasonably ensure the accuracy and integrity of the payroll system.

The District Clerk/Head Teacher reviews the timesheet prior to the Treasurer receiving it. It shall be the responsibility of the Treasurer to prepare all payrolls.

The Superintendent will conduct a periodic test to verify the accuracy and appropriateness of the district payroll. The test shall confirm that individuals listed on the payroll are currently employed by the district, and that the title, hours worked, and wages listed are correct. The test shall also confirm that individuals listed as employees are employees and not independent contractors (the procedure for determining employment status is outlined in policy 9500, Compensation and Benefits). The Superintendent will evaluate the results of the test and determine if improvements need to be made.
